The Dean Michael Angelo Batio Speed of Light Electric Guitar is spec'd by Batio to be an incredibly fast guitar. Its neck is super thin, slightly rounded for extra comfort and joins the body at a straight angle for extended playability. It has an ebony fingerboard and block inlays that are easy to spot on stage. The alder body has a double cutaway with beveled edges and is covered in a custom "Speed of Light" Finish that is sure to stand out wherever you perform. This signature guitar is loaded with EMG active pickups and has a Floyd Rose Original tremolo bridge, nickel hardware, and Grover tuners.

The Dean Rusty Cooley Electric Guitar features several design developments that put it ahead of its class. One of the most significant advancements is its super-thin neck, adding an ease of playability and comfort level. It also has an extra-deep body cutaway for extreme access to the high frets. And it comes with a recessed, original Floyd Rose tremolo system that sits flush with the body of the guitar, allowing easier pick access to the strings.

**EPIPHONE SPECIAL II (LEFTY)**

- Epiphone's number one selling model LP Special II is a great way for beginners to get started on guitar while getting the feel and tone of a Les Paul.
- Seasoned pros also love the Special II because it's a great-sounding workhorse of a guitar that allows them to leave their more expensive axes at home.

**EPIPHONE SHERATON (LEFTY)**

- The semi-hollow design of the Epiphone Sheraton II Electric Guitar uses a solid center block and hollow "wings" to give it the fat, mellow tone of a jazz guitar and the sustain of a solidbody.
- It has an arched maple top, back, and rim; laminated maple neck; gold-plated hardware; multiple bound body, neck, peghead, and f-holes; and vine inlay on peghead with mother-of-pearl and abalone fingerboard inlays.
- Includes two humbucker pickups and separate tone and volume controls.
